Involving you, Improving care: our involvement story

A shared event for staff, service users and carers to progress thinking on Personal and Public Involvement (PPI) and showcase good practice

**22 June 2016, Riddel Hall, Queen's University,
Stranmillis, Belfast**

Join us for a one day conference to focus on 'Involving you and Improving care'. This event will explore at depth the impact of involvement and the contribution it makes to Health and Social Care (HSC). It offers a collaborative learning opportunity bringing together an involvement network to share practice and identify future possibilities to further embed Personal and Public Involvement (PPI) into culture. It will be of interest to HSC staff, academics, service users/carers and the community and voluntary sector.

The event will offer you the chance to:

- exchange knowledge and practice in PPI;
- participate in co-produced workshops;
- hear from a range of influential speakers about emerging local and national best practice;
- engage with key note listeners and consider actions for impact;
- network with HSC staff, service users, carers and the voluntary and community sector;
- achieve an award in recognition of PPI work by showcasing your involvement story on a poster board;
- appreciate the outcome, influence and impact of involvement during collaborative learning sessions.

Join us for this exciting event by registering your interest with Holly Pepper at holly.anderson@qub.ac.uk. Follow us on twitter at #involvementstory

Details of the programme and opportunities to host a Collaborative Learning Session or Involvement Story Board will be circulated shortly.

This is a joint event which has been organised by the PHA, QUB and HSC partners with service users and carers. We would like to acknowledge funding from the Division of Clinical Psychology and the HSC R&D Division, PHA.
